

Paua

Introducing Paua. We build technology to make managing electric fleets and payments easy.

Just one brilliant card and app helps your fleet drivers to simplify their recharging, pay quickly and optimise effortlessly. Paua offers a seamless system that delivers hassle-free driver and fleet manager experiences via our innovative and intuitive fleet-management dashboard.

Our whole mission is to make your life easier, by adding features including:

- Overstay fee breakdown, to help reduce costs
- Start and stop charging alerts
- Notes section for each charging session
- Real-time monitoring of live-charging sessions
- Paua helps drivers to locate any one of 50,000 connectors nationwide, then pay for and monitor their consumption, quickly and easily.

We collaborate with over 35 of the country's

FACT FILE

- Integrated public, home and depot charging functionality
- 50,000+ charge connectors makes Paua the largest network in mainland England, Scotland and Wales

Paua Reimburse

Paua recently announced the launch of Paua Reimburse, a solution for equitable EV driver compensation. After 18 months of collaboration with Royal Mail, Paua Reimburse ensures fair payment for home and on-the-road charging. Built on Paua's extensive EV charge card

network, the mobile app offers accurate mileage capture, cost reimbursement, and streamlined approval flows.
